

Nilfisk GM 80 HEPA Filter Vacuum

Lightweight and portable, the Nilfisk GM 80 is a versatile machine providing the durability and performance required by dust control professionals. Featuring a 3 1/4-gallon tank capacity, it can be used in both portable and stationary applications. It features a standard multi-stage filtration system with a paper dust bag, main filter, microfilter and HEPA exhaust filter. The GM 80 has become a vacuum cleaner icon in a variety of industries.

- In the first stage of separation, a 2 1/4-gallon capacity disposable paper bag captures the bulk of collected debris.
- Extra-large main filter ensures a steady, even airflow which extends filter life and eliminates premature clogging.
- The optional microfilter, a final step in pre-filtration, protects the motor and acts as a barrier to even bacteria-size particles.
- HEPA (High Efficiency Particulate Air) filter ensures that 99.97% of all ultra fine particles, toxic and nuisance, are retained – down to and including 0.3 microns.
- Motor thermal protection device prevents overheating caused by failure to keep filters clean or by accidental blockage in a nozzle or hose.
- Ball-joint couplings give 360° freedom of movement without hoses splitting and cracking, while eliminating knots.
- Heavy-duty trolley adds mobility. Glides over all surfaces. Detaches for use on stairs.

There are four stages of filtration that trap incoming dust and debris before clean air is exhausted back into the environment.

Nilfisk GM 80 HEPA Filter Vacuum

Specifications

Data	Units	GM 80
Voltage @ 60Hz	volts	110-120/220
Power	watts	1100
Current Draw	amps	10
Waterlift, max	inches of H2O	84
Airflow, max	cfm	80
Filter Area (includes paper bag, main filter, microfilter, HEPA)	sq. in.	1477
Paper Bag Capacity	gallons	2.25
Tank Capacity	gallons	3.25
Dimension (l x w x h)	inches	14 x 12 x 16
Weight	pounds	11
Cord Length	feet	30
Filter Efficiency, HEPA	DOP-tested	99.97% @ 0.3 microns

*specifications are subject to change without notice

Standard Accessories

- Detachable trolley • Paper bags • Crevice cone
- 6'6" plastic hose • 30' cord • 5" upholstery nozzle
- Two straight steel wands • 3" round brush • Combination floor nozzle

Optional Accessories

- HEPA & ULPA filters • Microfilter • Brushless motor module
- Sound suppressor • By-pass motor module • Various filter materials, including standard cotton, optional GORE-TEX®, optional AES composite
- Blower adapter • Compressed air venturi module
