FILTRATION SOLUTIONS**

FILTERS AND PARTS

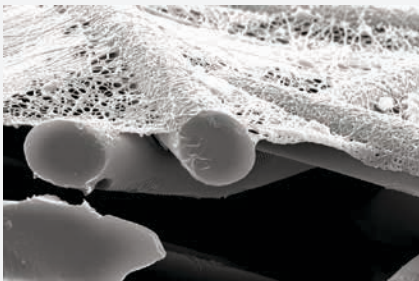

THE PRESCRIPTION FOR CLEANER AIR.

Donaldson is a global provider of filtration solutions for the pharmaceutical, nutraceutical, and cosmetic industries. Our advanced technology, extensive portfolio of filtration products, and unrivaled customer support help manufacturers provide a cleaner environment for their employees and reduce their long-term cost of operation. We offer filters and replacement parts for all popular dust collector makes and models and provide the widest range of filter sizes in the industry. Plus, our experience with installations worldwide makes us uniquely qualified to help with your specific application challenges. In fact, many top OEMs specify Donaldson filters and collectors because of our consistent performance standards.

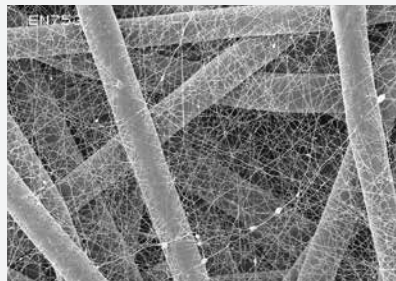

Better Media. Better Performance.

Donaldson filter media uses proprietary technology to improve surface loading capacity, reduce energy costs and extend the life of your filters, often resulting in a lower cost of ownership than generic filters.

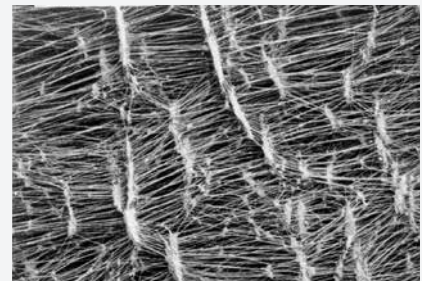

Ultra-Web®

Our proprietary Ultra-Web technology outperforms and outlasts the competition. A web of fine fiber on the outer layer of the filter media dramatically increases the filter's surface loading ability, improving the effectiveness of pulse cleaning, lowering pressure drop and extending the life of your filters.

Ultra-Web® SB

Ultra-Web SB is comprised of a fine fiber web over a spunbond polyester substrate. This web, combined with wide pleat spacing, enhances pulse-cleaning efficiency while capturing sub-micron dust, even when moisture is present.

Torit-Tex® Hydrophobic PTFE Membrane

This smooth, state-of-the-art membrane delivers excellent particle release during pulse cleaning and has a high tolerance for many of the chemicals and compounds used in production.

Filters and Parts for Any Collector, Any Brand.

Don't have a Donaldson® Torit® collector? Don't worry. Whether you're looking for an economic option for batch processing or a longer term, high performance solution, Donaldson has filters that work with all popular brands and styles of dust collectors for your production process:

Mixing	Spray Drying	Tablet Presses
Blending	Pill Coating	Central Vacuum Systems
Fluid Bed Drying	Encapsulation	General Nuisance Dust

Cartridge Filters

High-efficiency, fine fiber media delivers longer filter life and lower total cost of ownership.

- Ultra-Web® or Ultra-Web® SB media
- Improved pulse-cleaning efficiency
- Lower energy costs
- Economy options available

HEPA and 95% DOP Panels

Designed as a final filter for greater filtration efficiency.

- 99.97% or higher filtration efficiency on 0.3 micron particles for HEPA
- 95% or higher filtration efficiency on 0.3 micron particles for DOP
- Lightweight aluminum frame in a variety of sizes and airflow capacities

Pleated Bag Filters

Unmatched filtration performance on particles as small as 0.3-1 microns.

- Torit-Tex®, Ultra-Web® SB, or spunbond media
- Excellent dust cake release
- High filter efficiency and lower pressure drop

Bag Filters

Long-lasting filters improve the performance and efficiency of any baghouse.

- Dura-Life™ "Twice the Life" filter media
- Cost-effective, high-performance alternative to standard polyester
- Wide range of sizes available

Replacement Parts

Our extensive range of replacement parts include:

- Valves
- Fans
- Motors
- Hardware
- Repair Kits
- Bag Assemblies
- Accessories
- Bag-in/bag-out supplies

Always By Your Side.

Donaldson is 100% committed to meeting your replacement filter and part needs. Our knowledgeable support staff is just a phone call away.

Need advice? Donaldson offers expert engineering and design support for your application.

Need filters? We have more than 90,000 filters and parts in stock and ready to ship within 24 hours.

Need support? Donaldson's comprehensive warranty and dedicated customer service staff have you covered.

With 14 distribution centers and facilities in 37 countries, Donaldson has the global reach and local knowledge to deliver unparalleled service around the globe. You can count on Donaldson to be there for you now, through the life of your product and beyond.

Industry-Leading Technology

- Advanced filtration technology for optimal performance
- Reduced energy consumption and cost of ownership
- Advanced design and testing capabilities

The Most Filters and Parts

- For every brand and style of collector
- Wide range of filtration media for any application
- 90,000 filters and parts in stock and ready to ship

Unparalleled Support

- Live technical specialists
- Comprehensive pre- and post-sale support
- 40 manufacturing plants and 14 distribution centers worldwide

Significantly improve the performance of your collector with genuine Donaldson Torit replacement filters and parts.

Important Notice

Many factors beyond the control of Donaldson can affect the use and performance of Donaldson products in a particular application, including the conditions under which the product is used. Since these factors are uniquely within the user's knowledge and control, it is essential the user evaluate the products to determine whether the product is fit for the particular purpose and suitable for the user's application. All products, product specifications, availability and data are subject to change without notice, and may vary by region or country.
