TORIT® FUME HOOD

Low-Profile Design
Flexible Installation
Simplified Performance

The Fume Hood's low-profile provides greater installation flexibility than traditional canopy-style hoods and its engineered design provides effective weld fume collection in the most challenging environments. When paired with the optional weld curtains, the Fume Hood can be sized to reduce airflow requirements, ultimately lowering the overall cost of the entire dust collection system. Whether connected to an existing system or a dedicated cartridge collector, the Fume Hood brings added extraction capabilities to any operation.

The Donaldson Torit® Fume Hood is the ideal solution for operations that include robotic welding or manual weld cells.

DIMENSIONS & SPECIFICATIONS

Width x Length		Height		Weight	
ft	m	in	mm	lbs	kg
4 x 6	1.2 x 1.8	11	279.4	165	75
6 x 6	1.8 x 1.8	11	279.4	220	99
8 x 8	2.4 x 2.4	11	279.4	320	145
10 x 10	3 x 3	11	279.4	450	203

Hanging is the standard installation method.
